

# PORTER

PORTER PRECISION PRODUCTS NEWSLETTER

Volume 1 | Issue 3 | June 2020

## Porter is waiting to help you NOW!

Yes, even though these are the worst of times for many of us, Porter is still standing by and ready to help you fill your needs. Their facilities are stocked with not only people who can produce your particular needs with punches and dies, but Porter also has in stock die springs, gas springs, and even pins and bushings that are available on your call-out.

Also, if you have need of someone to come into your facility to ascertain exactly what you need, Porter has outside sales/engineering folks who await your call.

Porter has been servicing the metal working industry for over 70 years and they are not ready to stop helping their customers because of a mean old virus! You can get through this and Porter stands ready to help you do so!

Look at your needs and call the folks at Porter to assist you in fulfilling those needs. Together we can work around and in spite of the problems that are in the world today. **Give Porter a call!**
